TECHNICAL SKILLS

Python | C++ | Web Pentesting | OSINT | AI Security | Cloud Security | Git | GitHub

INTERPERSONAL SKILLS

Analytical Thinking
Problem-solving
Team Collaboration
Time Management
Leadership

INTERESTS & HOBBIES

CTF Challenges | Tech Writing | Open Source | Security Research | Vulnerability Assesment

LANGUAGES KNOWN

English | Hindi | Punjabi

PERSONAL DETAILS

Self-motivated | Organized
Quick Learner | Detail-oriented

ISHMEET SINGH

PROFESSIONAL SUMMARY

Computer Science student specializing in offensive security and red teaming, with hands-on experience in vulnerability research, attack surface mapping, and reconnaissance.
Proficient across full stack development: from making application architecture to developing innovative features.
Driven by a genuine curiosity for how systems break — and how intelligent tooling can accelerate the work of finding out. Looking to contribute to security-focused and development teams where technical depth and initiative matter.

EDUCATION

B.Tech in Computer Science Engineering
Chandigarh University, Mohali (Punjab)
Session: 2025–2029

Senior Secondary (CBSE)
U.M.P.S Sr. Sec. School, Punjab
Session: 2023–2024

Matriculation (CBSE)
U.M.P.S Sr. Sec. School, Punjab
Session: 2021–2022

TRAINING & PROJECTS

ZeroDayGPT

Technologies: Python | LangChain | GitHub

- Built an AI-powered cybersecurity assistant specialized in CVE research and vulnerability analysis
- Integrated real-time CVE lookups, exploit workflow guidance, and attack surface mapping
- Designed prompt-engineered system to assist red teamers with reconnaissance and post-exploitation tasks

ZeroTrace

Technologies: Python | FastAPI | Streamlit | NetworkX

- Built an AI-powered API Attack Surface Management platform that discovers shadow APIs, scores risk, and maps findings to OWASP API Top 10 and MITRE ATT&CK
- Designed a multi-stage discovery pipeline with framework fingerprinting and mutation-based endpoint discovery to reduce false positives
- Achieved 100% precision on a live vulnerable API.

CERTIFICATIONS & AWARDS

- SC-500 (Certified Cloud and AI security engineer)
- CLLMSE
- CLLMSP
- AZ-900
- AI-900

ACADEMIC ACHIEVEMENTS

- Former cybersecurity intern at HackHalt Cyber Intelligence Council.
- Former data analyst intern at Bluestock Fintech.
- Active participant in CTF (Capture The Flag) competitions
- Active participation in Hackathons

EXTRA CURRICULAR & CO-CURRICULAR

- Active member of Cysecsphere club— Chandigarh University
- Contributor to open-source cybersecurity tools on GitHub
